

# HERNAN PABLO HAWRYLUK

Full Stack Developer

- ✉ hernanhawryluk@gmail.com
- ☎ +54 9 11-3047-1861
- 📍 Monte Grande, Buenos Aires, Argentina (1842)
- ★ Date of Birth: 21-09-1983
- ★ Marital Status: Married, no children

## ABOUT ME

I am a Full Stack developer with experience in JavaScript, TypeScript and Python.

My skills include React, Node.js, Express, Bootstrap and Tailwind. As well as Next.js, Django and React Native among other key technologies.

My versatile approach allows me to develop web and mobile applications for iOS and Android, from their initial conception to effective deployment.

I have an advanced level of English and I am familiar with Agile and Scrum methodologies, as well as the use of version control tools.

You can find me on LinkedIn:

## ABOUT MY EXPERIENCE

Due to the variety of projects I have undertaken, I encourage you to review my portfolio for a clear understanding of my experience:  
<https://portfolio-hernan-hawryluks-projects.vercel.app>

Feel free to visit my GitHub repository to observe my coding practices:  
<https://github.com/hernanhawryluk>

I am open to answering questions and providing detailed explanations about any of my projects, as I believe each one of them are a significant part of my personal work and a testament of my skills as a developer.

## EXPERIENCE IN DEVELOPMENT

- **Web applications with React and Tailwind (Front-end):**
  - ✓ Following UX/UI best practices.
  - ✓ User authentication using JWT and Cookies.
  - ✓ Responsive designs for all screen sizes.
  - ✓ Strong performance, accessibility, and SEO practices.
  - ✓ Global state management through React Context.
- **Rest API with Node.js, Express and MongoDB (Back-end)**
  - ✓ Use of TypeScript for more robust code.
  - ✓ User authentication via JWT and Cookies.
  - ✓ Integration of MongoDB database with Mongoose.
  - ✓ Implementation of API routes with CRUD operations.
- **Web application with Next.js and Tailwind (Full-Stack):**
  - ✓ Implementation of Server Actions, routes and API queries.
  - ✓ User authentication through JWT and SessionStorage.
  - ✓ MongoDB database implemented with Prisma.
  - ✓ Integration with Strip for payment system.
  - ✓ Responsive, dynamic, and animated design for an enhanced user experience, following SEO best practices.
- **Rest API and Web Application with Django (Full-Stack):**
  - ✓ Implementation of API routes with data sanitization.
  - ✓ Design and integration of SQLite and MySQL database.
  - ✓ Use of HTML templates to embed variables and logic.
  - ✓ Responsive, secure with SEO best practices.

## CERTIFIED EDUCATION

- **Meta - Professional Front-End Developer:**  
Specialization in web development using React, HTML, CSS, JavaScript and Bootstrap. UX/UI design in Figma and version control with Git & GitHub.
- **Meta - React Native Specialization:**  
Specialization in cross-platform mobile application development for Android and iOS using React Native and Expo.
- **Meta - Professional Back-End Developer:**  
Specialization in Back-End Development with emphasis on Python, OOP, Django web framework, and relational databases.
- **Google - Project Management:**  
Agile methodologies course, using Scrum and Asana for project management and teamwork.
