ABOUT ME

I am a Full Stack developer, skilled in creating comprehensive web and mobile applications for iOS and Android, from their initial conception to deployment.

I have an advanced level of English that allows me to communicate effectively in international environments.

I am familiar with Agile and Scrum methodologies, as well as the use of version control tools.

You can find me on LinkedIn:

EXPERIENCE IN DEVELOPMENT

Due to the variety of projects I have undertaken, I encourage you to review my portfolio for a clear understanding of my experience:
<https://portfolio-hernan-hawryluks-projects.vercel.app>

Feel free to visit my GitHub repository to observe my coding practices:
<https://github.com/hernanhawryluk>

I am open to answering questions and providing detailed explanations about any of my projects, as I believe each one of them are a significant part of my personal work and a testament of my skills as a developer.

Full Stack Web Application React – Node.js

- **Back-end:** Modular structure with well-organized files, utilizing TypeScript to enhance maintainability and prevent potential errors. User authentication through JWT and Cookies. Integration of MongoDB with mongoose for Database. API routes including GET, POST, PUT and DELETE operations.
- **Front-end:** Responsive and adaptable to all screen sizes. Thoughtfully designed aesthetics and animations. Global state management through React Context. Modular and reusable components that facilitate maintenance. Excellent performance, accessibility, and SEO practices.

E-commerce Application Next.js

- **Front-end:** Responsive design adaptable to all screen sizes including Mobile. Animations and aesthetics that enhance the user experience. Good performance, accessibility and SEO. Implementation of TypeScript, Server Actions and calls to API routes.
- **Back-end:** Implementation of user authentication using JWT and SessionStorage, efficient integration of MongoDB with Prisma for the Database. Article search and filtering options, complete shopping cart management through state handling, and payment integration through Stripe. Management of articles, inventory, and orders through API routes and CRUD operations. Utilizing TypeScript for a more robust and maintainable code.

CERTIFIED EDUCATION

- **Meta - Professional Front-End Developer:**
